A skilled team delivering quality software solutions with precision and care.

Meet the TestCraft Team

Yanislav Todorov-Developer

Yanko Yanev-Designer /developer

**Rostislav
Ivanchev-Scrum
trainer**

Stages of work

Week 1:

- Planned the website
- Created the basic layout
- Set up the project

Week 2:

- Built the homepage
- Added menu and sections
- Made the site work on phones and tablets
- Added images and animations

Week 3

- Added login and contact forms
- Connected the database
- Added website functions
- Fixed bugs

Week 4

- Tested the website
- Improved speed and design
- Uploaded the website online
- Made final changes and completed the project

Communication & Productivity

Microsoft Teams

Real-time chat, video meetings, and file sharing keep everyone connected and informed throughout the day.

Microsoft Word

Documentation hub for requirements, specifications, and detailed project documentation that everyone can access.

Microsoft PowerPoint

Creating presentations for stakeholder updates, project reviews, and knowledge sharing sessions.

GitHub

Central hub for collaboration, code reviews, issuetracking, and automated testing workflows.

**THANK YOU FOR THE ATTENTION! Now let's check
the project**
